SIGNAL REX, in conspiracy with VERTEBRAE, is proud to present PARÁSITO's highly anticipated debut album, Despoblador II, on CD and vinyl LP formats, coming on December 12th!

MM formed PARÁSITO in 2016, rejecting all trends and seeking a sound without artifice. The conflict between remaining faithful to the canons of pure black metal and continuing to evolve toward a personal interpretation of the genre is the flame that fuels his music, edition after edition.

Despoblador II is the second part of a trilogy focused on inner despair, the agonizing existentialism of everyday life, and a constant lie assumed as the only possible means of survival. Trapped in a place too large to search for a way out, and narrow enough to leave no real escape, we drag ourselves into a spiral with no answer.
