Opis produktu

Gatefold 2LP (black vinyl) with printed inner sleeves and protection sleeve

"Schnee" ("snow") is omnipresent in the works of Swiss black metal artist Wintherr a.k.a. Paysage D'Hiver and turned into a four-part song cycle, released piece by piece on the compilation LP "Wurzelgeister" ('Schnee II', 2002) and on split records with Vinterriket ('Schnee I', 2003), Nordlicht and Drukh ('Schnee III' and 'Schnee IV', 2017).

All four tracks - created within a time span of almost 20 years and dealing with different facets of the frozen element - are now available together for the first time ever. They have been partly remixed and wholly remastered specially for this release.

Tracklist:

1. Schnee (I)
2. Schnee (II)
3. Schnee (III)
4. Schnee (IV)
