PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 10 MARCA !!!

"Schnee" ("snow") is omnipresent in the works of Swiss black metal artist Wintherr a.k.a. Paysage D'Hiver and turned into a four-part song cycle, released piece by piece on the compilation LP "Wurzelgeister" ('Schnee II', 2002) and on split records with Vinterriket ('Schnee I', 2003), Nordlicht and Drudkh ('Schnee III' and 'Schnee IV', 2017).

All four tracks - created within a time span of almost 20 years and dealing with different facets of the frozen element - are now available together for the first time ever on CD. They have been partly remixed and wholly remastered specially for this release.

1. Schnee (I)
2. Schnee (II)
3. Schnee (III)
4. Schnee (IV)
