Opis produktu

Rotten Bowel Of Pestigore – Complete works of obscure Finnish death metal maniacs PESTIGORE available on vinyl for the first time ever

Classic Finnish grinding death metal demos by **PESTIGORE** compiled together for the first time ever on vinyl via **Svart Records**! Take a vomit-soaked time machine back to the early days of truly ghoulish death metal with the putrid sounds of these five demos spanning from 1991-1992. *Rotten Bowel of Pestigore*, originally released only on CD through **Headsplit Records** in 2023, holds all the recorded material of **PESTIGORE** before the band's untimely disbandment in 1993, plus rare photos & liner notes from vocalist **Kari Kräkin**. Killer stuff and essential listening for fans of classic death metal.

PESTIGORE was founded in 1990 in Järvenpää, Finland. They were an active part of the first wave of Finnish death metal scene back in the day, but decided to call it quits after only three years of existing. In 2015 the band reactivated with founding members **Kari Kräkin** (vocals), **Saku Manninen** (guitar), **Teme Grönberg** (guitars) and **Pekka Sauvolainen** (bass) along with **Pete Raatikainen** (drums) in order to annihilate venues again.

Rotten Bowel Of Pestigore is available on Svart exclusive transparent yellow/black marble vinyl, limited purple vinyl, black vinyl, and CD.
