### Opis produktu

Debut full length from Australia's Pustilence, following the well received "The Birth of the Beginning Before the Inception of the End" EP in 2021. Now a four piece, the shift upwards in sound and complexity is on full display, as Pustilence rips through 11 tracks of absolutely vicious and cataclysmic death metal. Rampant tempo changes, blistering riffs, and disgusting vocals create a thrashing, relentless energy that's never short on compromise, or a hook. Fucking essential.

"Hailing from Australia—or perhaps a terrible bog, somewhere unholy—comes Pustilence with a sound reminiscent not of an era of death metal but rather a place where riffs are royalty and the time to be disgusting is all of the time" Invisible Oranges.
