Opis produktu

Limited edition 200 copies on black vinyl

Originally released on cd only in 2007, we are absolutely proud to bring you this classic split album of the best possible raw Finnish thrash metal in 12" vinyl format! Lots of surprising things happening around the world these days, but Pyoveli never lets you down: the filthiest, most bestial aspects of the 80's speed and thrash metal squeezed into one hard fist of fury. Think of Pleasure to Kill, Morbid Visions, early Slayer, classic albums of Razor and more, then turbo charge it all with roto tom punishing aggression. With Wounds, Bestial Burst has even longer history as their first full length album was our second release all the way back in 2002. Raging old school deathrash that takes no prisoners. Renewed, old school as fuck artwork and layout. Limited edition 200 copies on black vinyl only. Do you feel lucky? WELL DO YOU, PUNK??
