Opis produktu

PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 15 MAJA !!!

Mid-paced and bass-driven underground Black Metal with the ancient feel of the old-school Hellenic sound and the early 90's Brazilian Black Doom. "Inside the Eye of Horned Winds" consists of seven morbid, somber and melancholic songs from the darkest corners of Hell. The Finnish duo of Malefic Eye and Hail Conjurer lures the listener into the abysmal and horrendous realms, leaving one without any light or hope. LP on Nuclear War Now!, CD with the re-mastered debut demo as bonus tracks on Bestial Burst.
