Opis produktu

Canadian war metallers REVENGE return with two new songs. The 'Deceiver.Diseased.Miasmic' EP represents a new chapter in the band's nihilistic and hateful mission against the world. Immersed in a thick layer of sonic muck, the beastly grunts and spiteful screams, the crusty guitar sound and the assaulting drums drown out any pretense of accessibility and affability. 'Deceiver.Diseased.Miasmic' emanates a grubby atmosphere, pushing the limits even further than on previous efforts.
