Opis produktu

Ringarë returns with four tracks of winter-worshipping meditative ambient and black metal, titled *Thrall of Winter's Majesty*. Originally written in early 2004, these early recordings were unearthed and finalized in 2019 to bring closure to the original vision and intent with a completed lineup. Drawing inspiration from the moods of Ildjarn-Nidhogg's *Hardangervidda* and the heavy, hypnotic synth of old Summoning, *Thrall of Winter's Majesty* represents a unique entry its collection of work: it is not a representation of the future of **Ringarë**, but is purely conceptual in its form and a reflection of times long gone.
