Running Wild's classic album "Pile of Skulls" as a deluxe Picture-LP (limited to 500 copies). Comes with an insert and an huge poster of the artwork!

One year after the strong "Blazon Stone", Running Wild released one of their best works to date. 1992's "Pile of Skulls" at times harks back to older material like "Under Jolly Roger", with the intensity and attitude of their classics, but in a better produced way with a lot more melody vowed into the process.

Running Wild were on a remarkable roll from the late eighties to mid nineties, and "Pile of Skulls" has all the traits that made the band great back in the day, the musicianship is top notch (by then Rolf's vocals had fully matured, giving him a distinct and easily recognizable voice), the production is virtually impeccable and the songs themselves are among the very best that pirate-themed speed/power metal has to offer.

- Artwork by the legendary Andreas Marshall (Sodom, Blind Guardian, Destruction, Obituary)
- Hard to find on vinyl these days
- Top notch recording by Jan Nemeč (a.o. Grave Digger, Helloween, Celtic Frost)
- Extremely limited edition of only 500 copies world wide
- Comes in a quality sleeve with lyrics and a nice A2 poster
- The year 2026 will bring the final Running Wild live show at Wacken Open Air!

For fans of: Judas Priest, Accept, Saxon, Helloween, Grave Digger, Sabaton
