Opis produktu

Sad Whisperings was formed in 1990 (as Desecrate) and released several demo's in the 80's / 90s up till their split in 2004 and gained a worldwide cult following. Sad Whisperings was pure doom death metal like their early inspiration Paradise Lost and with a touch of the Dutch school of doom death metal like The Gathering. Sad Whisperings got signed by Dutch cult label Foundation 2000 (The Gathering, Gorefest) and released their debut album in 1993 called 'Sensitive to autumn'. Demos 1995 & 1998 are a natural follow up to their debut, doom death metal, Dutch style.

The booklet contains rare and old pictures, flyers and posters. Extensive liner notes from Steven Willems (Rock Tribune, Streams of Ancient Wisdom: The History of Dutch Death And Extreme Metal).
