Opis produktu

Sad Whisperings was formed in 1990 (as Desecrate) and released several demo's in the 80's / 90s up till their split in 2004 and gained a worldwide cult following. Sad Whisperings was pure doom death metal like their early inspiration Paradise Lost and with a touch of the Dutch school of doom death metal like The Gathering. Sad Whisperings got signed by Dutch cult label Foundation 2000 (The Gathering, Gorefest) and released their debut album in 1993 called 'Sensitive to autumn'. The album was recorded at the famous Beaufort Studios with Han Swagerman (The Gathering, Sear Bliss etc). Also featuring guest vocals by Usurper / Moon of Sorrow's Parick Harreman. As bonus 3 tracks from their demo 1992 are added. The booklet contains rare and old pictures, flyers and posters. Extensive liner notes from Steven Willems (Rock Tribune, Streams of Ancient Wisdom: The History of Dutch Death And Extreme Metal). The band recently reformed, plays live and is currently working on a new album.
