Opis produktu

The obscure 1996 CD-single now on vinyl EP. Two absolutely mental tracks – now reissued for the first time fully official and licensed from band and Osmose Productions. The most extreme band on the planet and this is not up for discussion. More focused and direct sound production that bring out the maniacal storm of riffs and non-stop violence to its maximum. With exclusively re-drawn cover art by Rok, especially for this release. No remaster, no bonus. No trendy pre-order, just be sadistik and buy it now.
