Opis produktu

"Vestiges oniriques" is a compendium of instrumental tracks including the whole "Echo II" cassette, the ambient material from "Feu Sacré" demo as well as a few unreleased novelties. All compiled recordings are remastered and presented in a classy 6 panels digipak. These sonic landscapes are essentially dark synth with hints of neo-classical and stellar folk touches including occasional sparse guitar parts and noisier moments. A spiritual journey to cold worlds, a transcending melancholy. This compact disc digital audio is strictly limited to 280 copies.
