Opis produktu

New York trio **Sanhedrin** have spent the last decade at the forefront of the American heavy metal scene. Their blend of traditional metal and hard rock sounds combine with a fresh modern energy and perspective. With 2022's release *Lights On*, the band had created their most complete work to date. Now they follow it up with ***Heat Lightning***, a diverse collection of songs that capture the band's wide array of influences with an elevated level of production. When asked how this new album compares to the band's previous efforts, drummer Nathan Honor explains: "Sonically there's no comparison. ***Heat Lightning*** is the fullest representation of the power of this band. When you take three seasoned musicians with their favorite hand picked instruments, put them in front of two brilliant producer/engineers in a studio stacked with incredible equipment and no outside distractions, this is what you get."
