## SATANIC WARMASTER Fimbulwinter [CD]

Cena	<b>63,90 zł</b>
Dostępność	<b>Dostępny</b>
Czas wysyłki	<b>5 dni</b>
Producent	<b>Werewolf Records</b>

### Opis produktu

For the past 24 years, SATANIC WARMASTER has remained a highly revered name in the black metal underground: seemingly doing no wrong with converts, but forever riling detractors. Helmed by the tyrant Werwolf - whose involvement in the black metal scene stretches back 20-some years, as the original vocalist of Horna - SATANIC WARMASTER have released classic albums after classic albums, from early essentials like *Strength and Honour* and *Opferblut* to relatively more recent monuments like *Carelian Satanist Madness* and *Nachzehrer*, and always at their own pace. Longtime supporters of the band, HELLS HEADBANGERS in conspiracy with Werewolf Records, is proud to handle the worldwide release of SATANIC WARMASTER's fifth album, *Fimbulwinter*. It's been five long years since *Nachzehrer*, and although the band's been busy with a handful of 7" EPs and splits in the interim, *Fimbulwinter* is the first full-length to document the Warmaster's development during that time. Highly anticipated to say the very least, *Fimbulwinter* sees the band expanding into more epic 'n' triumphant waters, but ones that are icier than ever. One could say it's a travelogue across both SATANIC WARMASTER's now-vast discography and also across the history of classic '90s black metal. Granted, the band have largely shaped the paradigm of modern Finnish black metal - itself one of the most prolific and immediately identifiable in the world - but forever an iconoclast AND purist, SATANIC WARMASTER has the innate ability to take well-worn tropes and shape them to his own, diabolic design. Bolstered by full-bodied production - by far, the best the band have had to date - and a further integration of mystical, night-sky synths, *Fimbulwinter* is a fresh blast of ancient, mildewed stench. Feel the force of *Fimbulwinter* and submit to its majesty!
