Opis produktu

Comes with a 12 page booklet featuring all lyrics and band photos.

The fourth full-length album from SATANIC WARMASTER, now repressed on vinyl and CD. *Nachzehirer* stands as a cruel monument to medieval darkness, northern desolation, and Black Metal terror. Spanning 40 minutes across 8 songs, it was recorded entirely with analogue equipment, resulting in a truly extreme and unrelenting sound.

Originally released in 2010, this album marks yet another striking rejuvenation of Werewolf's unapologetic vision, delivering a more rabid production and more varied songwriting—elements the countless imitators can never hope to match. *Nachzehirer* plunges deep into a kingdom of dark natural forces, vampiric magick, inner shadows, and devil worship.
