SATANIC WARMASTER

Revelation ... Of The Night

[CD]

Cena	59,90 zł
Dostępność	Dostępny
Czas wysyłki	5 dni
Producent	Werewolf Records

Opis produktu

While each of SATANIC WARMASTER's five full-length albums serve as crucial (and rightfully classic) monuments in their own right, it is often the band's myriad EPs where their paradigmatic (and paradigm-influencing) aesthetic truly shines. As such, Revelation...of the Night compiles two crucial mini-albums: 2004's...Of the Night and 2007's Revelation. Both breathing the essence of the days when the black metal underground was still cloaked in shadows, both EPs foretell the full-length strikes to follow, with the melancholic majesty of ...Of the Night largely prefiguring the classic Carelian Satanist Madness LP a year later and Revelationsignaling a return to rotten pastures with 2010's eventual Nachzehrer. On their own, however, both short-lengths are endlessly satisfying and undiluted Finnish black metal for which SATANIC WARMASTER has made known the world over.
