Opis produktu

Diehard clear blue with black splattering limited to 100 copies.

Originally released on F.O.A.D. 15 years ago in a very limited edition that quickly became highly sought after by collectors, here's the official reissue of this New Jersey evil thrash masterpiece, now for the first time ever sourced and mastered from the original 1/4" reels with 1 previously unreleased bonus track!! "This band was spawned from the desire to write some of the fastest, heaviest black metal ever, created at a time when that genre consisted of bands like Slayer, Sodom, Venom, Exodus, Destruction, and Mercyful Fate. I am talking about the early 80s" (Tom Stevens, SAVAGE DEATH) Cult New Jersey deadly Thrash from 1985-1986!! Complete studio discography collecting their two demos "Mass genocide" and "Crucified in hell" + 1 bonus track. A hellish war machine delivering the perfect link between "scream bloody gore" era DEATH, POSSESSED and early SLAYER. High speed drumming, face melting thrash riffing and hell invoking vocals from beyond the grave!! Includes A4 booklet with rare photos, flyers, excerpts from fanzines and liner notes.
