Opis produktu

With this release of "Deo Optimo Maximo," Nuclear War Now! once again breathes new life into a cult relic from the trove of ancient Eastern European metal in the form of a collection that includes Scarecrow's 1989 demo of the same title in its entirety, as well as three instrumental rehearsal tracks that were recorded for the second demo in 1990. All songs are characterized by their short durations, which affirmatively serve to enhance their violent explosiveness.
