Opis produktu

The new album "Alptraumgänger" represents the completion of a creative period, which took place over the last years. Simultaneously, the album contains a progressing journey into the past, which consists of two individual parts. The first part contains new compositions which were recorded in the course of the year 2017 bit by bit. Stylistically the songs stand out by a stronger focus on aggression and sheer brutality, still always featuring the typical schraty flair: melodious, old-school, symphonic, icy-cold!
