**Sevan Mater proudly presents:**

**Sentenced – Frozen**

**Frozen** is a pivotal album in Sentenced’s evolution, marking the moment where the band fully embraced a darker, more melodic, and emotionally charged direction.

Originally released in 1998, this record represents a turning point away from their early death metal roots and toward the melancholic gothic metal sound that would later define their legacy. Cold, heavy riffs, mournful melodies, and a pervasive sense of isolation and despair dominate the album, creating an atmosphere that is both bleak and hauntingly beautiful. **Ville Laihiala**’s vocals, raw and expressive, convey anguish and resignation with striking authenticity, giving the songs a deeply personal and immersive emotional weight.

Issued on CD in the classic jewel case format, **Frozen** stands as one of Sentenced’s most influential and enduring releases. The album flows with a somber elegance, balancing crushing heaviness with moments of fragile melody and introspective calm. Tracks like “**Kaamos**” “**For the Love I Bear**” and “**Mourn**” highlight the band’s gift for crafting unforgettable, sorrow-laden songs that linger long after the music fades.

**Frozen** is a bleak emotional landscape, a soundtrack to loss and introspection, and a cornerstone of late ’90s gothic metal that continues to resonate with listeners seeking depth, darkness, and sincerity.
