Opis produktu

Black 12" vinyl (33 rpm) including the orchestral version of “Anubis” as bonus track, in gatefold sleeve.
Sixth pressing: 200 copies worldwide.

In 2008, the Greek legend returned from its undead slumber to unleash brooding visions of much darker times and space unto an unsuspecting world. SEPTICFLESH have once more renewed and refined all their trademarks: on the top layer stand massive guitar-walls of death sometimes coming close to blackness and often interlaced with intricate technical string-filigree. Underlining this fierceness with haunting gothic melodies the band has added an epic dimension by including a full classical orchestra. The Philharmonic Orchestra of Prague joins these triumphant compositions with 80 instrumentalists and a choir of 32 singers to stunning effect! Recorded at Fredman Studios by Fredrik Nordström (IN FLAMES, DIMMU BORGIR, DARK TRANQUILLITY).

For fans of FLESHGOD APOCALYPSE, ROTTING CHRIST, BEHEMOTH, EX DEO, MOONSPELL.
Artwork by Seth Siro Anton.
