Opis produktu

Both their band name and album title bring to mind shattered glass and razor-sharp edges. That is perfect imagery for Shards Of Humanity. They play raw-yet-technically Adept death/thrash influenced by mid-period Death Sadus Massacra Pestilence and other scorching bands with a foot in Two related spheres of metal. Yet their sound is unmistakably their own as well not overly beholden to any one influence or era. Having started as just a Two piece with a drummer and guitarist-slash-vocalist they were blazing their own trail from the very outset. Now even with a third member added to beef up their guitar Assault Shards Of Humanity is still more likely to Slash through the crowd than to submerge into it. Shards Of Humanity self-released an EP in 2012. Now they will follow that up with their debut full-length Fractured Frequencies consisting of Seven songs of exhilarating annihilating philosophically bent thrash and death metal. Unspeakable Axe Records is proud to deliver this gem from the underground. It will be in stores everywhere on September 2 2014.
