Opis produktu

Zazen Sounds, in union with Cyclic Law, presents the second chapter of the "Nekrologie Sinistrae - Orchestra Noise Opus II" set for release on April 30th.

As the eternal Suns of Ma'at blaze through the inner sanctums of Self, Nekrologie Sinistrae guides the listener through the initiatic spiral—where torment, silence, and divine ecstasy converge. This is not merely an album; it is a sacred odyssey, an offering that stares into the abyss of Thanatos and pierces it with the rose spear of Life Eternal.

In a vortex of esoteric vibrations and ceremonial soundscapes, Shibalba performs an act of sonic alchemy—dissolving the veil between life and death, merging the metaphysical opposites of the Therion and the Knight. Here, Death and Life embrace as lovers, dancing beneath the gaze of the One King who reigns over both Moon and Sun.

This is music for the sacred rites of Becoming and Over-Becoming.
A breath and a cry.
A mirror of the agonizing beauty that lies within transcendent transformation.

On behalf of Shibalba Halls...
