It’s been six long years since Sojourner released their latest album, Premonitions. Since then, a lot has happened: the band went through lineup changes, signed back to Avantgarde Music and sort of spent a good portion of these years resting, building up ideas and inspiration for what had to come next.

Gateways is the result of such rest, a collection of seven new tracks, including “Epitaphs”, the digital-only single released in late 2024. And let’s just say that Sojourner is back at full force. The signature sound that made Mike Lamb and Emilio Crespo’s band stand out since their beginnings, over a decade ago, is still there and now taken to new heights.

Sojourner’s dreamy, folky atmopsheres are still here, now with the powerful addition of Heike Langhan’s (ex-Draconian, Remina) beautiful vocals. At the same, Gateways doesn’t spare speed and fury, with fast up-tempos and monolithic riffs.

As guitarist and songwriter Mike Lamb states, “Gateways is a labour of love written over the last few years of outward silence, harnessing the soul of everything we've done before while carrying the band forward toward new horizons and opening the way for what comes next.”
