Opis produktu

Crystal clear, blue & white marbled 12" double vinyl in printed innersleeves in gatefold.
Limited to 500 copies worldwide.

SÓLSTAFIR are different. Their unique blend of metal with beautiful melodies, psychedelic moments and a strong undercurrent of classic / hard rock comes as varied and at times appealingly bizarre as the landscapes of their native Iceland. Their fifth full-length 'Ótta' is the logical continuation of the musical course this four-piece adopted on the highly acclaimed forerunner 'Svartir Sandar' (2011).

Expect the unexpected, such as seduction by subtle strings or a hypnotic banjo. This album needs to be heard again and again to peel back layers of details, each different and yet always revealing the same: great songs – all of them.

For fans of ENSLAVED, BARONESS, MASTODON, AGALLOCH, LONGDISTANCECALLING, PRIMORDIAL
