Opis produktu

"Ritual of the End" is the fifth conjuring from Sorcier Des Glaces. It represents the annihilation of the human race, through seven blackened incantations. The sound of SDG evolved a lot on that album, getting heavier, faster and darker, but always retaining a strong melodic core. Sorcier Des Glaces delivers again their Cold Primitive Metal sound straight from the northern forests of Québec. Feel the darkness that penetrates you...

200x heavyweight marble (white/black)) 12" (180g) in a microtene innerbag, panted innersleeve full-color on 220g; download card; jacket full-color printed on 350g, all assembled in a plastic overbag.
