Opis produktu

First materialising in early 2015, Spectral Apparition perform a peculiar, unsettling brand of Blackened Death Metal. Recorded at Priory Recording Studios and produced by the illustrious Greg Chandler (Esoteric, Lychgate), the first EP from Spectral Apparition 'Manifestation' represents the primary step in the realisation of their collective vision. Taking inspiration from morbid tales of unknown hauntings and maniacal possession, Spectral Apparition commune with the living on behalf of entities calling from beyond the shroud of perception. Spectral Apparition summon forth visions of the unfettered soul soaring through vast chambers of death beyond the slow rot of the corporeal form. The whole demo is streaming here and will be released on cassette on October 31 2016.
