Almost three years spent sharpening orthodox weapons, SP reveal their second full length "Of the Sign...", six schizo spiraling, deranged hymns of Black Heavy Metal from a lost time.

While the S/T full length was a raw blistering torrent draped in first wave blood, 'Of the Sign...' seems to be thoroughly drenched in its epic, strange and primitive ways. A violent cacophony of insanity laden cavern vocals, labyrinthian guitar trilling, scalding drum brutality, and analog harsh-noise eruptions; these are sinister yet adventurous black/heavy/death abominations from a forgotten age.

Erratic musical madness with improbable entrances, and impossible exits.

Featuring S. Peacock (Ulthar / Pandiscordian Necrogenesis / Mastery ) on Strings and Vocals, and A. Spungin (Vouna / Ormus / Taurus ) on Drums and Handmade Synthesizers. Recorded in the depths of the S•P Dungeon / and studio mixed at Menegroth The Thousand Caves.
