Opis produktu

Comes with double sided insert printed on 150gsm art paper housed in a 300 gsm carton outer sleeve.

From the mystic shadows, forged in the crucible of winter’s chill, emerges Steinras! Their long-awaited album is poised to shatter expectations and ignite souls. Brace yourselves for a symphony of raw emotion, woven by the voices of several legendary Norwegian metal vocalists. This isn’t just music—it’s a cosmic odyssey beyond the ordinary! Many years in the making, the black metal project by Steinar Aven and Arne Gandrud is now materialized in stone. Not just a project, but an amazing and unique journey through the sound and landscapes of Norway. With vocal support of nothing but legends of the scene this has turned into a diamond for the black-hearted.
