### Opis produktu

The seventh studio album from NY death metal legends Suffocation.

Originally released in 2013, "Pinnacle of Bedlam" harkens back to the band's classic records "Effigy of the Forgotten" and "Pierced From Within".

Pop Matters called the album 'another killer record made by metal's irrepressible old-guard'.

Metal Injection described the album as provoking 'the same tactile, savage, superhuman sensation that 'Pierced from Within conjured'.
