### Opis produktu

Pressed on super marble Red and Black vinyl, limited to 200 copies.

Back in the late 90's/early 2000's - the peaking time of the 2nd wave of Swedish BM - Svartsyn reached a towering level with the masterful album "Destruction of Man": one of the best and most quintessential Black Metal albums in history!

With its intriguing and one-of-a-kind style of riffing, and breathing misanthropy throughout, this release managed to cast the already respected name of Svartsyn in dire stone.

To make the release even more special, we have added an exclusive unreleased rehearsal track!  
A misanthropic reek of isolation and hate. A destruction of man in the flesh!
