Opis produktu

Jewel case CD & 16 pages booklet.

Teitanblood – “From the Visceral Abyss”

Teitanblood returns to claim underground metal’s most lawless frontier. “From the Visceral Abyss” is an all-engulfing tide of unfettered, raging chaos – where black and death metal collapse into a maelstrom of destruction. Its force is neither random nor aimless but guided by an instinct sharpened over decades.

This is Teitanblood at their most unhinged, yet wholly assured in execution. Dissonance and precision collide in monstrous, writhing riffs, underpinned by percussive violence that shifts between merciless blasting and dirge-like weight. Layer upon layer of bile-drenched vocals coil through the cacophony, forging a suffocating atmosphere of grotesque grandeur.

As ever, the album is steeped in the restless spirit of the late Finnish artist Timo Ketola, who stood as both interpreter and architect of Teitanblood’s visual world. Ketola’s oracular visions provided the scripture from which these lyrics emerged – his legacy not merely preserved but carried forth beyond the grave. The tradition of transmuting sound into imagery continues, with Dávid Glomba filling the booklet’s pages with a dense tapestry of illustrations, sigils, and hand-scribed invocations.

The cycle is eternal. The dead shall die again, their bodies will be feasted upon by worms, and the voice of the black earth will proclaim to those who sleep in the dust with the tumultuous clamour of empty graves, overshadowing the clouds.

Tracklist:

Enter the Hypogeum
Sepulchral Carrion God
From the Visceral Abyss
Sevenhundreddogsfromhell
Strangling Visions
And Darkness was All
Tomb Corpse Haruspex
