Opis produktu

Hailing from Switzerland, TEMPLE OV PERVERSION are a young band with old souls. The band's first demo, Rehearsal MMXVII, was a rough 'n' ready display of their ancient, witching black metal, suggesting salacious glories to come. Alas, they have arrived with Temple Ov Perversion, a veritable bounty of black filth, lust, and sleaze. Despite its release in the year 2019, one could mistake TEMPLE OV PERVERSION's true opening salvo as some long-lost relic of the early '90s, announced on fliers that a release was forthcoming on Deathlike Silence Productions; cult names invoked include Hadez, Imperator, Mortem, and Hungary's Tormentor. Four songs in 20 minutes, each as stout and swaggering as the next, and what you altogether get is a loose 'n' lawless expurse of sonic sodomy that's immediately headbanging and evil as fuck: no scenes, no rules, NO LIGHT! TEMPLE OV PERVERSION play black metal in the old vein exclusively!
