Opis produktu

These are high quality 8-panel digipak CDs with excellent full colour printing and moreover have a beautiful metallic effect throughout in addition to gloss raised UV lamination done on parts of the intriguing Micha Schneider artwork. This is the first press of the CD which is limited and hand-numbered to 500 copies. Each CD comes with a download code and a transparent logo sticker.

While most bands are content reinterpreting established forms of death/grind music, Terra Builder are constructing their own contemporary version of the same. The songs have the desired cathartic expression but are more meticulous and calculated than normal, and in their case, even have elements of black and sludge metal. It all comes together brilliantly, as they channel their diverse influences through a coherent and consistent sound that they can begin to call their own. Charting through varying terrains, their unpredictable progressions often culminate in neck-snapping breakdowns or massive earth-heaving chugs. All of this is done under the cover of darkness, with the sound exuding a peculiar futuristic, post-apocalyptic vibe. It's clear that Terra Builder are onto something here, creating superbly-written forward-thinking, dark, and invigorating music finely blending suitable elements from multiple extreme metal styles on only their debut release.

For fans of: Pig Destroyer, Altarage, Replicant, Norse, Crypts of Despair, Nails, Spurn
