Classic Jewelcase Edition

Prepare for the eighth installment from The Flight of Sleipnir, masters of Viking/Norse mythology-infused tunes. Founded back in 2007, founders David Csicsely and Clayton Cushman have been on a relentless quest, blending heavy sounds with ancient sagas. Initially a dynamic duo, Csicsely and Cushman crafted five albums before expanding their lineup. In 2016, with the release of "Skadi" under Eisenwald Records, Dave Borrusch and Justin Siegler became integral members. However, after the acclaimed release of "Eventide" in 2021, the band bid farewell to Siegler, welcoming Jeremy Winters as the new guitar virtuoso.

"Nature's Cadence," slated for release in 2024 via Eisenwald, marks the powerful return of The Flight of Sleipnir. While not strictly a concept album, it weaves themes of resilience against the elements and reverence for nature's beauty. Recorded predominantly at their studio in Arvada, Colorado, with additional touches in Clay's home studio and World Famous Studios, the album's sonic landscape was carefully sculpted by the local Pete de Boer, renowned for his attention to detail and finesse.

Thematically rich deliving into the complexities of human experience. From the primal violence of old Norse sagas to the existential musings on control and the pursuit of discovery, each track resonates with a deep and multilayered meaning. Drawing inspiration from ancient texts and personal introspection, The Flight of Sleipnir crafted a timeless narrative throught out the new record.

"Nature's Cadence" masterfully intertwines ethereal tones, avant-garde flair, and thunderous riffs, showcasing The Flight of Sleipnir's evolution and dedication - Mastered on vintage analog equipment, imparting a nostalgic haze that envelops the music, serving as the final spark to unleash the magic.
Through a delicate fusion of melancholic melodies and haunting vocals, this release promises a transformative musical experience. Prepare to be transported on a nuanced journey through the ages, where every note whispers of depth and emotional resonance. As with every release from The Flight of Sleipnir, the powerful artwork was crafted by band founder David Csicsely himself, seamlessly uniting each work into a cohesive masterpiece. This artistic endeavor consistently highlights the depth and creative ambition of the band with each new offering.
