Opis produktu

Digipak with 8-page booklet

THE LION'S DAUGHTER new album 'Skin Show' could serve as the soundtrack to Times Square in the 1970s - the epicenter of sin and salacious misdeeds; a haven for sex, drugs, and crime beneath the inviting glow of neon signs from sleazy adult video stores; a place one would not dare walk alone after midnight unless tempted by devil himself.

It is deviant, raw, nasty, disturbing, and yet the most lively, evolved, and polished version of the band's work to this day.

For fans of Inter Arma, Lord Mantis, Tombs.

Cover by Mothmeister.
