The Thule Grimoires are The Ruins Of Beverast's 6th spawn in full length and continue the sonorous wandering across anecumenical spheres that form up and embattle for the ever raging war against poisonous and verminous trespassers of human origin. The seven works evolve around discarnate, spiritfule protagonists that join the brave and inexorable powers of nature against their foe. These sceneries are rooted within the familiar TROBesque experience, grim and low-bottomed monolithic tone, enriched with morbid melodic facets and surreal soundscapes.

The Thule Grimoires

1. Ropes Into Eden
2. The Tundra Shines
3. Kromlec'h Knell
4. Mammothpolis
5. Anchoress In Furs
6. Polar Hiss Hysteria
7. Deserts To Bind And Defeat
