Opis produktu

CD Digipak in slipcase with 8-page booklet.

From album to album, THEODOR BASTARD carefully and masterly combine many different exotic and traditional instruments. 'Volch'ya Yagoda' is no exception.

The special northern atmosphere of the album is created with Nordic nyckelharpa and jouhikko, primeval flutes created from tree roots and shamanic percussion. And as always, the leading role in the album belongs to the voice of Yana Veva, exciting and bewitching by its deepness.

'Volch'ya Yagoda' takes the listener to the cold and twilight realms of marshy swamps of taiga and mossy tundra, to unexplored places where the earthly plane and the spiritual world are separated only by a very thin ghostly veil.

For fans of Heilung, Garmarna and Wardruna.
