Thrymr (NOR) – Saga Of The North

LORD AMONG THE GIANTS...

This is the solo project from EMPERORs Trym, featuring cinematic soundscapes telling an epic viking story.

Trym Torson who is widely known as the drummer on landmark albums of Norwegian Black Metal like EMPEROR`s *Anthems to the Welkin* at Dusk or ENSLAVED`s *Vikingligr veldi* and *Frost* moved into uncharted waters by composing music inspired by his longstanding passion for cinematic soundscapes and ambient music.

THRYMR doesn`t have much in common with Black Metal; instead, the 8 tracks that make up the debut album *Saga Of The North* are not to be missed if you are into dark sounds which tell their own stories and journeys.

Ltd 500, 250 x black vinyl, 250 x “northern lights” vinyl.
Gatefold-sleeve with hot-foil printing and 20-page 12“ booklet.

Saga Of The North is also available on music cassette and digipak-CD. There will be also different merchandise.
