Opis produktu

Black vinyl with insert.

It may be being released in 2019, but *Realms of Hatred* is a total full-on assault of turn-of-the-'90s DEATH METAL. No gore, no triggers, no Swedeath worship: rather, the sulfurous diabolism of early Morbid Angel, Sadistic Intent, Chile's Pentagram, and even a bit of Necrovore. Four tracks of Metal of Death madness (plus two requisite mood-setting interludes), all brimming with the hellfire and mystery that made the late '80s such a classic period in the underground – enter **Thulsa Doom's** *Realms of Hatred*!
