Opis produktu

Todestrieb is a Polish black metal duo formed in 2023 in Cracow by blein (guitars and bass) and Res (vocals and lyrics). After several months of hard work, the duo completed their debut studio record, Corona Tenebra, which will be released in December by Avantgarde Music.

Drawing their inspiration from bands such as Watain, Odraza, Drastus, Kriegsmaschine, Tortorum, Funeral Mist and many more, Todestrieb managed to find their own way in the crowded black metal underground, specifying that “those bands influenced rather the essence of our music than the form”.

Corona Tenebra consists of five tracks and an outro, and its lyrics, all written in Polish but translated into English in the album booklet, circle around themes like spirituality, gnostic satanism, blasphemy, theology and philosophy.

released December 13, 2024

Featuring Mgła, Hauntologist and Owls Woods Graves’ Michał “The Fall” Stępień on drums, Todestrieb debut is a very diverse, fascinating take on black metal. Corona Tenebra was recorded in No Solace studio and mixed and mastered at Impressive Art Studio. With an artwork by Izabela Grabda, Corona Tenebra will be released via Avantgarde Music on CD, LP and digital on December 13th, 2024.
