-A whopping eighteen years after the previous album, Finnish black metal cult Torturium shocked the world in 2024 by releasing their third album online. Out of the blue and without any further explanations. Now, with killer artwork by Nayla Darkart, Bestial Burst is very proud to put it out in a physical format it truly deserves. Raw, sharp and cold as ever, the riffs are even more fierce and songwriting more compelling than before. Music already written by the main man Lord War Torech in 2008, more recently finalized with a new trio line up in 2023 - 2024 making this album a well orchestrated ensemble to reach that final black metal catharsis. The wait was long, but certainly worth it as this is nothing short of a timeless masterpiece.
