TREMBLING VOID Demo I LP BLACK [VINYL 12'']

Cena	**129,90 zł**
Producent	**Inferna Profundus Rec.**

Opis produktu

From the cold northern terrain of Canada arises a new presence in the underground black metal sphere. TREMBLING VOID skulks into the recently flourishing landscape of one man black metal recording acts and announces his menacing existence like a broken buzz saw. It’s hard to ignore this dark entity.

The inaugural release by this putrid yet highly listenable act simply titled ‘Demo I’ entrances the listener with atmospheric elements while maintaining the raw authenticity of the second and third wave bands which have shaped the scope of modern black metal. This highly potent foray of filth is an impressive first-act in a dramatic and sinister presence to come indeed.

Characterized by extremely piercing vocals belting in the forefront from a bell tower atop a blazing temple of shrill and poignant guitar work, swirling the mind into a pulsing trance of not only astute black metal, but also into a frightening yet inviting environment of synth driven chanting. You can feel the dissonance in your very core. Previously released on cassette by Narbentage Produktionen, this harsh gem will find a well deserved vinyl release via Inferna Profundus Recordings in the summer of 2022. Don’t blink, because before you know it- TREMBLING VOID may be gone.
