Opis produktu

Minnesota is a hotbed for nature fueled black metal and Tvaer are one of the most spirited and mighty bands emerging from this state. Uvaer is thus far the bands most evolved and well composed material to date. With 5 new tracks that revel in the primitive past, yet embrace a moving sense of melody that dwells within dissonance, Tvaer's debut full-length is a poignant statement of intent that will appeal to connoisseurs of Scandinavian inspired blackness along with fans that find solace in the murky deep woods of what the US has to offer from a black metal perspective.

Recommended if you like: Panopticon, Wolves in the Throne Room, Emperor
