Opis produktu

Norsk black metal conglomerate Ulvehyrde is hailing from Hønefoss and featuring past and present members from Beastcraft, Vulture Lord, Sarkom, Isvind, Angst Skvadron etc.

It is known that Norway is considered, without any doubt, the cradle of the worldwide black metal movement and Ulvehyrde fully represents the incredibly misty and dark spirit that comes out of those lands.

Their music is a pure fundamental mid-tempo black metal based upon old, dark, Norwegian history.

An excellent, obscure and deeply cold release that spans the true norwegian black metal spirit and ULVEHYRDE pays perfect homage to the dark denizen of the nocturnal glades, and is a true paean to backwoods malignity.

Englemakersken is the highly anticipated debut full length album and it will be released in different formats, a couple of them very limited.
