Unanimated (SWE) - Fire Storm

To celebrate the imminent re-release of UNANIMATED's whole discography on cassette tapes through Darkness Shall Rise Productions, it is with great delight that we can also offer the very first stand-alone MLP of UNANIMATED's second demo *Fire Storm*.

33 years after its original release on tape in 1991, this revered recording that put UNANIMATED on the map to become one of Sweden's greatest melodic Black/Death Metal bands alongside NECROPHOBIC and DISSECTION, will eventually get its well-deserved stand-alone release on 12" vinyl.

ltd 333 x white vinyl, 12" instert, A2 poster
