**PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 15 MAJA !!!**

Unsalvation is extreme music for our rotten age. Darkest, heaviest, most brutal death metal bordering chaotic war noise. Still keeping the strongest and most oppressive riffs in the main role. Interludes of coldest industrial noise included to mince your soul into dust between the songs that violently hurl your whole body against the walls of steel. Totalitarian visions, endless struggle, eternal battle. You will feel crushed after the treatment: This ultimatum is absolute! FFO: Diocletian, Adversarial, Archgoat, Demoncy, Immortal Fate, Devourment.
