The shadows stir once again as Uønsket returns with the highly anticipated new EP, Reborn. Following the acclaimed debut Forlatt, this latest offering stretches across six tracks and twenty-one minutes of uncompromising Nordic black metal fury.

True to its name, Reborn embodies growth and transformation while remaining steeped in the quintessential darkness that defines Uønsket's sound. Bigger, bolder, and more unrelenting than its predecessor, the EP delivers a sonic experience that grips the listener from the first note and refuses to let go.

Each track feels like a spell cast in darkness, layered, unpredictable, and utterly consuming. The vocals are raw, demonic, and brimming with venom, perfectly complementing the hypnotic yet hateful guitar melodies that weave through the mix. The basslines pulse like a second heartbeat, pulling the listener deeper into the abyss, while the percussion strikes with precise fury, minimal yet devastating, every snare crack and bass kick serving as both ritual and reckoning.

With Reborn, Uønsket demonstrates not only mastery over the foundations of black metal but also a vision for its future. This EP is a testament to what has been achieved and a forewarning of what is still to come.

May True Nordic Black Metal Reign Eternally.
